EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney William Reid on May 3, 2004.

The application has been amended as follows: in claim 6, line 7, replace "C₂₀-alkysilyl" with --C₂₀-alkylsilyl--.

2. The following is an examiner's statement of reasons for allowance:

Holtcamp et al. (WO 99/64476) teaches a complex with structure of (C₅H₅N)B(C₆F₅)₃ which encompasses compound of formula (I) of the instant claim 6. however, (C₅H₅N)B(C₆F₅)₃ is not prepared by a process which is different from the process of the instant claims (see page 15, lines 7-10). Therefore, the processes of making compounds of formula (I) of the instant claims are deemed to be novel. The examiner reads the process limitations of making compounds of formula (I) into the process for making the catalyst of claims 7. Therefore, all of the pending claims are deemed to be novel.

Applicants are advised to resubmit the claims with thicker lines for formula (III) and (II) of claim 9 because those formulas do not have clear pictures in the electronic image system of the Office.
